

Variable name	Description	Example	
Country	Country name		
ID	InterviewID: ISO_Nr		
Actortype	nat_government, prov_government, loc_government, students, private_sector, civil_society, science, households, edu_institutions, private_companies		
Problems			
Problem_awareness_pop	lack of awareness among population was mentioned: yes/no		
Problem_awareness_pol	lack of awareness among policy makers was mentioned: yes/no		
Problem_concernedness	How concern is the interview partner; high, medium, low, NA		
Problem_littering	Littering is a problem; was mentioned: yes/ no		
Problem_consumption	high consumption is a problem (midstream); was mentioned: yes/ no		
Problem_recycling	no or too little recycling is a problem; was mentioned: yes/ no		
Problem_waste_mgmt	ill waste management is a problem; was mentioned: yes/ no		
Problem_production	High production rates (too much production of plastic products - upstream); was mentioned: yes/ no		
Problem_alternatives	no good alternatives; was mentioned: yes/ no		
Problem_waste_segregation	lack of segregation was mentioned: yes/ no		
Problem_import	plastic imports are a problem was mentioned: yes/ no		
			water, cities, biodiversity, health, visual pollution, rivers, drainage blockage, forests, aquatic life, foul smell, dumping sites, air pollution, microplastics, marine pollution, tourism, coral damage, agriculture, wildlife, workforce, climate, soil
Problem_impacts	free hand - impacts mentioned on water, cities, biodiversity, health and etc. or NA		
NPF_victims	free hand - who are the main victims mentioned (e.g. human, environment, marine species, etc.)		
NPF_villains	free hand - who are the bad guys/ culprits contributing most to plastic pollution mentioned by interview partners (e.g. Chinese tourists, households, sea nomads, etc.)		
NPF_hero	free hand - who is perceived as the actor committed to solving the problem (e.g., the children will educate their parents)		
	NPF - Narrative Policy Framework		
Governance	mentioned: yes/ no		
Relevance_international_pol	international treaties are relevant for national level policy		
Coordination_sectoral	lack of coordination across sectors		
Coordination_levels	lack of coordination across levels		

Unclear_responsibilities	unclear responsibilities among the involved actors		
Actors I - Responsibility: Who is responsible to mitigate pastic pollution?	responsible: yes/no		
Res_Nat_government	National		
Res_Prov_government	state/ province (e.g. Sabah)		
Res_Loc_government	municipality and below (e.g. Semporna)		
Res_Students	university and school level		
Res_Private_sector	waste collectors, recyclers (conntected to waste)		
Res_Civil_society	ngos, igos, monks, etc		
Res_Science	researchers		
Res_Households	individuals/ wider population		
Res_Edu_institutions	schools, universities		
Res_Private_companies	hotels, shops, tour guides, cafes, restaurants etc.		
Actors II - Culprit: Who is responsible (e.g. due to government failure/ poller) for the bad situation?	culprit: yes/no		
Cul_Nat_government	National		
Cul_Prov_government	state/ province (e.g. Sabah)		
Cul_Loc_government	municipality and below (e.g. Semporna)		
Cul_Students	university and school level		
Cul_Private_sector	waste collectors, recyclers (conntected to waste)		
Cul_Civil_society	ngos, igos, monks, etc		
Cul_Science	researchers		
Cul_Households	individuals/ wider population		
Cul_Edu_institutions	schools, universities		
Cul_Private_companies	hotels, shops, tour guides, cafes, etc.		
Actors III - Target group: Who should be the target group of measures to mitigate plastic pollution?	target group: yes/no		
Tar_Nat_government	National		
Tar_Prov_government	state/ province (e.g. Sabah)		
Tar_Loc_government	municipality and below (e.g. Semporna)		
Tar_Students	university and school level		
Tar_Private_sector	waste collectors, recyclers (conntected to waste)		
Tar_Civil_society	ngos, igos, monks, etc		
Tar_Science	researchers		
Tar_Households	individuals/ wider population		
Tar_Edu_institutions	schools, universities		
Tar_Private_companies	hotels, shops, tour guides, cafes, etc.		

		Must be derived from the interview not the actor group, in some cases a district officer might be more a SLI, or a big hotel that is implementing specific in-house policy to reduce plastic waste might also be a implementer ... (but also a target group)	
Actor_role (can be more than one selection, separate by comma)	1= formulation/policy actor - not an implementer (e.g. ministry, governmental agency)		
	2= managerial/ organizational implementer (not street-level, e.g. district office)		
	3= street level implementers (e.g. village heads, local NGOs staff, heads of youth organizations, etc.)		
	4= target group (e.g. shops, households, etc.)		
If actor role = 2 or 3 (i.e., implementer)			
Discretion	If implementer - free hand - does the interview partner indicate a certain degree of discretion, e.g. private sector waste collectors developing their own schedule / collection plan.		
Implementation issues	mentioned: yes/ no		
Monitoring	lack of monitoring		
Financial_resources	lack of financial resources		
Research	lack of research		
Infrastructure	lack of infrastructure		
Capacity	lack of capacity of implementers		
Enforcement	lack of enforcement		
Policies in place	mentioned that a policy is currently in place, based on their knowledge: yes/ no		
Pol_epr	extended producer responsibility		
Pol_import	import regulations		
Pol_awareness	awareness campaigns		
Pol_education	education programs		
Pol_capacity	capacity building		
Pol_RD	research & development		
Pol_tax	levies or taxes on specific products (often bags)		
Pol_ban	bans of specific products		
Pol_substitutes	alternatives like reusable bags, or banana leave plates		
Pol_clean_up	clean-up campaigns		
Pol_upcycling	making a new product, like blacktop		
Pol_recycling	making a new raw-material		

Pol_waste_collection	waste collection		
Pol_effectiveness	lack of policy effectiveness		
Pol_effectiveness_expample	freehand, provide example or copy and paste from the interview what they said.		
Solutions	mentioned as solution to overcome plastic pollution/ strengthen plastic policy: yes/ no		
Sol_lead_agency	procedural measures to establish lead agency		
Sol_responsibilities	clear responsibilities		
Sol_epr	extended producer responsibilty		
Sol_awareness	awareness raising measures		
Sol_segregation	segregation of waste		
Sol_upcycling	upcycling of plastics		
Sol_recycling	new raw materials		
Sol_education	education programs at schools		
Sol_capacity	capacity-building programs		
Sol_RD	research programs		
Sol_tax	taxes or levies on products		
Sol_ban	ban of products		
Sol_finance	financial measures		
Sol_infrastructure	infrastructural measures		
Sol_substitutes	alternatives		
Sol_clean_up	clean-up campaigns		
Sol_enforcement	enforcement procedures		
Sol_monitoring	monitoring procedures		
Traditions to build on (free-hand)	freehand or NA
